

Make a Difference!

Improve the quality of care and life for Medicare beneficiaries

As a forward-thinking, healthcare quality organization, FMQAI is offering a career opportunity in its Medicare ESRD Network division. As the Network in Florida, our organization conducts quality improvement projects, community outreach, patient and provider education and technical assistance, administrative activities, and information management services in dialysis and renal transplant settings. We are currently looking for individuals dedicated to expanding their knowledge and skills, working collaboratively, motivating providers, embracing change, and exceeding expectations.

ESRD QUALITY IMPROVEMENT DIRECTOR

Responsibilities: Leads quality improvement efforts with Florida ESRD community and serves as a quality improvement expert. Develops and promotes quality improvement initiatives and trend analysis; develops reports for the Medical Review Board; serves as a resource for providers and facility quality improvement personnel; and is responsible for developing, implementing, and evaluating educational components for the Network. These activities are coordinated with staff, MRB and Board to assure that appropriate subject matter is being addressed.

Qualifications: A Master's degree in nursing or a closely related field is highly desirable, but will consider a bachelor's degree with appropriate experience; 5+ years of clinical / quality improvement experience; and excellent written and verbal communication skills. Experience in nephrology, public health, or epidemiology is beneficial.

This is an excellent opportunity to work with a growing company.
